Dear KidzTown Parents,

The recent restrictions due to Covid19 has driven us to seek out new ways to glorify God where we live, work and play. That is as it should be! As Christians we should always be looking up and forward with our hearts set on seeking God's will in our present circumstances, whatever they may be.

The developments in the last few months have also given us reason to take a serious look at our child health and safety policies. We want you to know that your child's safety is our deep concern. We are always looking at ways to improve life in KidzTown both spiritually and physically, and we need your cooperation to achieve positive results.

Continually seeking the guidance of the Lord in the life of our church, we would like to resume offering children's services during Sunday worship. In order to do that we are implementing some important changes in how we care for babies and children. Please understand that these new policies are not meant to be a burden to you, but rather to be assured that we are taking every reasonable measure to ensure the safety of our volunteers and the children in our care.

Please review the new Nursery and Preschool policy prior to dropping children off in KidzTown.

In His service,

*Barbara Powell*

### Responsibility of Volunteers in KidzTown:

Volunteers on duty will be the only adults authorized to remain in KidzTown during the service.

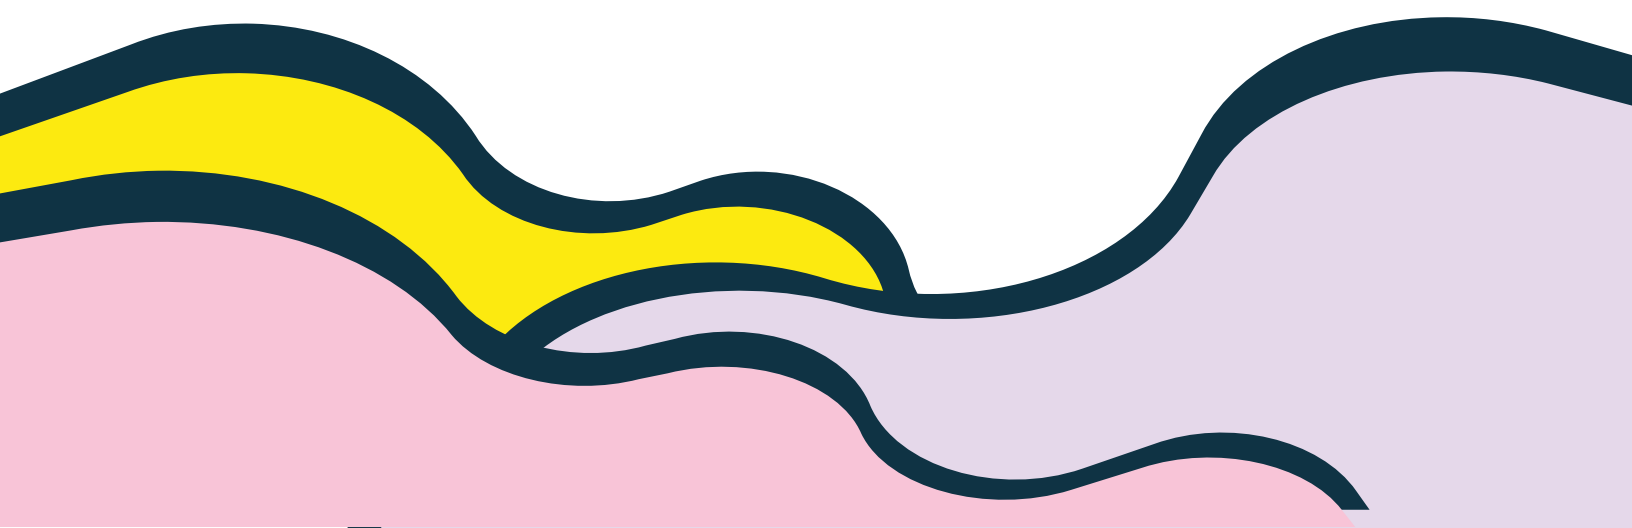

Volunteers must self-check for fever before arrival. A temperature of 100.4 or greater is indicative of illness, but if a volunteer has *any* fever, we ask that they seek a replacement for that rotation.

Volunteers are to wash their hands immediately upon arrival in the nursery, and wash/sanitize hands as frequently as necessary. Handwashing is especially important after helping a child dry their tears, their nose or after helping them in the restroom.

Volunteers are requested to sanitize any toys that were used during their rotation once the children leave, or immediately after a child has had a toy in his mouth. All surfaces should also be sprayed with Lysol after the children leave.

Volunteers should only change a diaper if it is soiled, being sure to use gloves and wash their hands thoroughly after a change occurs. Changing station must be sanitized after each use.

Snacks/drinks will not be offered in KidzTown until further notice. (A drink of tap water from a disposable cup will be offered on request.)

## Healthy Child Policy 06/2020

### Parent Responsibilities:

Parents please ensure that no one in your household presents with a fever before dropping children off in KidzTown. Temperatures will be taken with touchless thermometers upon arrival as well.

Before service, please enter KidzTown through the double doors near the kitchen, and exit up the stairs across from the nursery. After service, please reverse the direction by entering KidzTown down the stairs across from the nursery, and exiting the building through the double doors near the kitchen. Check-in and check-out station will be located in the dining hall just outside the KidzTown hallway. Please be sure to check in and out.

If your child is training on the toilet or already trained, please help them use the restroom and wash their hands before entering the nursery or preschool room. KidzTown restrooms will be available and cleaned between each service. (No child will ever be denied use of the restroom, but children need parental guidance regarding personal hygiene now more than ever.)

KidzTown volunteers for that week are to be the only adults inside the nursery or preschool rooms.

Food, liquids, and toys from home will not be permitted in KidzTown until further notice. Diaper bags will not be necessary, diapers and wipes will be supplied by the church until the risk of Covid19 infection is diminished.
