

Hutspot--a main dish

6 potatoes

4 or 5 carrots (can use more if carrots are small)

2 onions

2 sausages

gravy

Cut potatoes, carrots and onions into small pieces. Put in a pan and just cover everything with water. Add some salt. Bring it to a boil, turn down heat and cook until everything is soft. Drain water but save some of it. Mash everything together with some milk and butter like you would do for mashed potatoes. You may put some of the water in it but it shouldn't be too soggy. This is the hutspot.

While the above is cooking, brown 2 sausages and cook until done. Make gravy (a gravy mix is fine). Serve the hutspot with the sausage and gravy on top of it.
