

THE HENDRIX FAMILY ENGLAND

July 2026

England has woken up this summer from a long, wet winter. The weather this summer has been incredible! One of the driest and sunniest summers on record, especially compared to one of the wettest winters ever. This past month has continued to be consistent with the rest of our summer, and I'm sure it has been much the same for you.

We recently attended a town show, which is somewhat like a county fair in the United States. The church we serve at set up a booth with a game for children to play, while also giving us an opportunity to invite families to our Holiday Bible Club. The responses from the community were very positive, and as Holiday Bible Club approaches, we are praying that some of the children and families we met at the show will attend.

Another event on our summer calendar was a trip to Wales to fill the pulpit for another missionary who was in the United States. We were thankful for the opportunity to minister at the churches he has planted and to see firsthand how God is working there. We were excited to try and be a blessing, it was a great experience.

As I have mentioned in previous letters, we are actively seeking a place to begin holding Sunday services. Please continue to pray with us about this need. I have contacted a couple of places, but neither opportunity has worked out. However, even through the opportunities that have not worked out, God has opened other doors by allowing us to learn about additional possibilities through recommendations from other venues.

We know that God has the right place for us, and He knows the right time. Please continue to pray that He will clearly lead us to the place He has prepared for us and that we will have wisdom and patience as we follow His direction.

For God's Glory,
The Hendrix Family

Please keep praying with us:

- That God would continue working on hearts across England.
- For spiritual growth and maturity among those attending Bible study.
- For wisdom and discernment in our ministry.
- A reliable weekly meeting place
- That God would keep crossing our paths with people genuinely searching for truth.
- For our spiritual health
