

A Note from Betty Davis

January 2020

Dearly Beloved and longed-for, Family and Friends,

>

It's hard to believe that Thanksgiving and Christmas have already passed again. Time certainly is as a vapor. I have spent time with all three kids during the last few months. I sold the house in Springfield so now feel somewhat homeless though the kids take good care of me. We felt it better to handle that big job of selling the house and furniture now rather than waiting. The very first person to look at the house bought it. Much of the contents went to the new associate pastor and his family in the cross-cultural ministry in Springfield.

>

My heart was warmed by the many cards letters and notes over the last couple of months. Thank you for not forgetting to pray. I turned 89 in August so headed now for 90. Even so I daily have opportunities to ask people if they know the Lord as their Savior. One of my doctors who knows I'm a Christian and has grown much in his own Christian faith through his relationship with Frank and me asked me to ask my cancer doctor if he knew the Lord. The answer brought great joy to my heart when he told me that he was a Jew but that Jesus was his Savior. You never know what influence even a simple question can have.

>

For the next month I will be in West Virginia with David, then, Lord willing, with Joan in Georgia in February unless the Lord returns first then we will meet you all in the air. I just spent several weeks with my son Jon in Tennessee.

>

Pray for opportunities to witness in the times I am able to get out and about. We really don't know what effect the cancer is having other than causing weakness and nausea. My one good eye continues to offer light so as long as I can see and get around with help I will continue to tell the Good News that He has risen and that He lives and desires a relationship with mankind.

>

May this New Year challenge you all to more prayer, reading of the word, and telling of the gospel.

>

Together for the gospel's sake with love,

>
