Working with Wycliffe in Indonesia

Wycliffe

Hello Everyone!

How is your summer going? We have just returned from Indonesia, where we completed our survey of the island of Sulawesi — 18 tribes in all. This last trip was mostly in coastal areas, and we spent a lot of time on different types of boats, from ferries to outrigger longboats. We rejoiced to find the Lord is at work changing communities through His Word.

STAN & SANDY ANONBY

Working with Wycliffe in Indonesia

Invited to the chief's house for Hari Raya.

They live very humbly, but build beautiful churches.

After Easter, we spent two weeks where people practice the majority religion, and it was shocking to see how different they were from the villages where Jesus reigned. All they had was the hope that following rules would avoid God's wrath and get them into Heaven. What a contrast with those who have a relationship with a resurrected Saviour who loves us! Please pray for these villages with no Bible nor Christians. They comprise 95% of the population of Sulawesi.

After Indonesia, we spent some weeks at a conference in Thailand with survey leaders from around the world. There, we were able to fellowship with old friends, and present the findings from our survey in Sulawesi. These will help guide God's people to where God's Word is needed most.

We are so appreciative of you who help us advance this important work so that these precious people can encounter His love in words that speak to their hearts.
